To whom it may concern

Re: Letter of Recommendation for Infinitus Consulting

I am privileged to recommend Chantal Strauss and her organization, Infinitus Consulting.

I've worked with Chantal closely in 2018/ 2019. Infinitus Consulting was our training provider for our Discretionary Grant Funding received, for Supervisory as well as General Management training.

The Infinitus Consulting training style can be described as consultative. It ensured that not only our learners, but their Senior managers understood the programs being attended as well as relevant milestones. While there was a defined curriculum to be followed, Chantal and her team aligned the relevant programs with our chosen learners as well as our organizational needs. The Infinitus group went above and beyond to ensure success for each learner, always considering their individual needs.

Through group activities and interactive learning, our learners have gained confidence to successfully lead and motivate their teams as well as to communicate effectively which has helped to improve employee engagement.

Chantal is forthright, but neither intimidates nor imposes her wealth of knowledge to undermine. She is genuinely sincere as well as honest, with an authentic and professional character.

I highly endorse Infinitus Consulting.

Ruanda Nel

QA/HR Manager
